

OCTOBER 28TH, 2019

I highly recommend A&M Construction & Roofing. After a bad storm, our roof had several leaks. I found Mario and his team online after reading several reviews of their work. The reviews were all spot on. Mario and his team came out same day to assess the damage and see what repairs were needed. With more storms coming in a few days, Mario worked hard to get our roof repaired before those storms came so we wouldn't have more damage to our office. The professional service and quality of work was just incredible. We will use A&M Construction and Roofing if we ever have future needs.
